Fisher 400 65-Watt Stereo FM Receiver

- A Famous Model, Regularly \$237.58 in 1966 Catalog
- First Stereo Receiver of This Quality to Sell Under \$200
- Full Array of Controls and Inputs plus Fisher Excellence

Huge price cut on one of the best stereo receivers ever crafted by Fisher. Now, at sensational sale savings, you can own this superb instrument at modest cost. The full-feature FM tuner and powerful 65-watt amplifier bring you stereocasts with dazzling clarity and realism. Get static-free FM spanning the audio spectrum (25-25,000 cps). Tuner section boasts 3 tuned circuits in front end, plus 3 IF stages and 2 limiters. Stereo filter cuts-out noise on weak stations.

Amplifier section has DC on filaments of low-level stages to prevent hum. Single selector switch combines input and mode selector (has inputs for all sources of stereo). Controls include bass and treble, tape monitor switch, scratch filter, loudness on-off, speaker on-off. Has local and normal antenna inputs. 18 tubes, plus Stereo Beam and rectifiers. Brushed brass panel. 5 $\frac{3}{4}$ x17 $\frac{1}{2}$ x13" deep. Less case, below. For 110-130 volts, 60 cycle AC. Shpg. wt., 39 lbs. Shipped express.

72 T 548 RU. \$10 Monthly.....199.95

72 T 055 RX. Oiled Walnut Wood Case. 7 lbs.....22.45

SPECIFICATIONS—

Output: 65 watts IHF; 28 watts/channel sine wave.
Response: ± 1 db, 25-25,000 cps. Harmonic Distortion: 0.5%. Hum and Noise: 80 db down. Outputs: 4, 8, 16 ohms; headphone jack; tape recording; center channel for 3rd amplifier. Tuner IHF Sensitivity: 1.8 μ v. Signal-to-Noise: 70 db. Separation: 35 db.

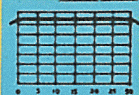

PACKED WITH DELUXE "TOP-PERFORMANCE" FEATURES

"Golden Synchrode" tuner front-end with three tuned circuits, assures superb, static-free reception of stations near and far.

"Stereo Beam" signals the presence of a stereo broadcast, and serves as an FM tuning indicator.

Full response of 25-25,000 cps brings you full musical range for your listening enjoyment.

Powerful 65-watt output for finest reproduction of the most powerful orchestral passages.

Outstanding 35 db stereo separation assures stereo of the utmost realism.

Front-panel stereo headphone jack allows convenient private stereo listening.

IMPORTANT NEWS FOR ALLIED CUSTOMERS

NOW

NO MONEY DOWN!

**For Anything You Buy on Your
*ALLIED CREDIT FUND ACCOUNT***

**YOU GET
THESE**

8

**BIG
ADVANTAGES**

- ① **NO MONEY DOWN**
Allied makes it easier to buy than ever! Nothing to pay for 30 days.
- ② **YOU CAN TAKE MORE THAN TWO YEARS TO PAY**
- ③ **CONTINUOUS BUYING POWER**
Your Allied Credit Fund is like a lump deposit of money invested by Allied in your good faith, set aside in your name and ready for use by you alone.
- ④ **EXTRA BUYING POWER**
For only \$5 monthly you can buy up to \$100 worth of anything Allied sells.
- ⑤ **PERMANENT AND SELF-REPLENISHING**
Whenever you buy at Allied, you draw out of your Credit Fund, but every payment you make goes back into your Credit Fund ready for you to use over again.
- ⑥ **MAKE ADD-ON PURCHASES ANYTIME**
- ⑦ **YOU ALWAYS KNOW WHERE YOUR ACCOUNT STANDS**
You get a full statement each month. No complicated records to keep.
- ⑧ **BEST CREDIT TERMS IN THE ELECTRONICS INDUSTRY**

PLUS BENEFITS

A single low monthly payment brings you anything Allied sells. All you pay is a small monthly service charge, which is automatically reduced every time you make a payment. No service charge at all if paid in 30 days.

Now—NO MONEY DOWN—You Don't Need Cash

For Everything You Want or Need from Allied

Just Say "Charge It" And We Will Open An

ALLIED CREDIT FUND ACCOUNT FOR YOU

Here's How Your Allied Credit Fund Works

When you first open an Allied CREDIT FUND Account we set up a Credit Fund in your name. It allows you a definite amount which we set aside in a lump sum credit deposit for your personal use. Buy anything you want. You always know exactly how much credit is available to you. You enjoy top buying power for low monthly payments. For example, a monthly payment of only \$20 lets you order up to \$480 worth of merchandise.

✓ TO OPEN YOUR ACCOUNT...

To enjoy the advantages of an Allied CREDIT FUND, fill in application on back of order blank and send it in with your order. No down payment required.

✓ LOW MONTHLY PAYMENTS...

You can use all or any portion of the amount in your Credit Fund. Your monthly payments depend on the amount you use. Each time you buy, you draw against your Credit Fund, but each payment you make goes toward building up more and more credit because you are continually replenishing the Fund.

✓ TO ADD-ON TO YOUR ACCOUNT...

Just sign your order in the space provided (minimum order \$10). Determine your monthly payment in the following way:

1. Combine amount of your "add-on" order with your present unpaid balance.
2. See table on order blank to find monthly payment for new unpaid balance.
3. If the monthly payment is the same or less than the amount you are currently paying, no change in your monthly payment is required.
4. If monthly payment for your "add-on" order, plus your present unpaid balance is more than you currently pay, we will show the new monthly payment on your next statement.

✓ SIMPLE, EASIEST PLAN...

Because you get a detailed personal statement each month, you don't have to bother with bookkeeping. Allied's Credit Fund Plan is the last word in low-cost buying power convenience.

Allied's Credit Fund Plan makes possible your immediate enjoyment and use of everything you want in electronics. It places at your command a definite, always-known credit fund that gives you top buying power for the lowest monthly payment. Just open an Allied Credit Fund Account to order anything you want—without a penny down. Use it anytime. Use it for "add-on" purchases. Minimum order only \$10. Enjoy maximum buying power with your Allied Credit Fund.

Check These Exceptional Credit Features

You always know what you have in your Credit Fund. You know exactly how much buying power you have, from the moment you open your account and place your first order. When you make purchases they are charged against your Credit Fund. Each payment you make decreases the balance due and at the same time increases your credit. The monthly statement we send you shows clearly how much unused credit you have.

There are no complicated records for you to keep. No bookkeeping problems. We send you a personal, detailed statement of your account every month. It shows your purchases, payments, unpaid balance, and most important—the amount of unused credit you have available. Remember—you pay only for what you use.

Only your signature on "add-on" orders. After your first order, your signature in the space provided on the back of the order blank is all you need to make your purchase. Minimum order is only \$10.

You pay only for what you use. For instance, your Credit Fund may have been set at \$400 on the basis of an \$18 monthly payment, but if your order is for only \$220, your monthly payment may be only \$11 (see table on back of order blank).

There's only a small service charge. 1½% is added to your monthly balance (monthly minimum 50¢). Exact amount is shown in your statement and it's reduced each time you make a payment. No service charge at all if paid in 30 days.

Make "add-on" purchases any time. You don't have to complete payments on a previous purchase to make a new purchase. In many cases, there's no change in your monthly payment. To illustrate: Suppose you have a balance of \$50 on a purchase of \$160. You have been paying \$8 per month. You can now order up to \$110 more for the same \$8 per month. If your "add-on" order is for more than \$110, your monthly payment will be adjusted.

**Just Say "Charge It"...AND WE WILL OPEN AN
ALLIED CREDIT FUND ACCOUNT FOR YOU**

NOTICE TO BUYER: MAIL ORDER-RETAIL INSTALLMENT CONTRACT

Do not sign this contract before you read it. Under the law, you have the following rights: a) To pay in advance the full amount due; b) Under certain conditions to redeem the property, if repossessed for a default.

ACCOUNT AGREEMENT

ALLIED RADIO CORPORATION, Chicago, Ill. 60680. Please open a Credit Account for me. I agree that each purchase made under this contract will be subject to the following terms: Until the merchandise is fully paid for, title to and right to possession of the merchandise shall remain in you; Upon default in payment of any installment of the purchase price, you may without notice declare the entire balance immediately due and payable, and pursue all remedies available to you by law. I shall pay an installment each month as billed by you, which will include a service charge in accordance with the terms stated in your current catalog; and if I elect to pay the full account within 30 days after the first billing date, there will be no service charge. For the purpose of obtaining credit, I make the following representations listed below:

TO "ADD ON" AN ORDER

- Just sign your name below—no questions to answer
- Make your "add-on" purchases without down payment
- Minimum "add-on" purchase order is only \$10.00
- Low monthly payments—take more than 2 years to pay

ALLIED RADIO CORPORATION, Chicago, Illinois 60680. Please add the merchandise listed on the reverse side as a purchase under my present Allied Credit Fund Account. This purchase will be combined with my present account, and I will pay on the one combined account according to the contract terms set forth in your current catalog and upon the conditions stated in my original contract.

Altec-Lansing Solid-State Stereo Amplifier

- One of Finest Amplifiers Ever Made for Use in the Home
- Solid-State Circuit Offers a New Dimension in Pure Sound
- Ample Power for Any Speaker System • Instant "On"

Model 360B. A Special Purchase from world-respected Altec-Lansing brings you this studio-quality instrument at almost half its original price. You get 70 watts of pure power from an all-solid-state circuit, amazing reliability, and a Keyboard Control Panel that approaches the flexibility of professional equipment. Thrill to the full orchestral range, from the lowest notes of the pipe organ to the highest overtones of the violin (13 to 30,000 cps).

The 70-watt IHF output is enough to drive any stereo speaker system to full output. Four premium output transistors have oversized heat-sinks for cool operation. Automatic self-resetting circuit breakers continuously guard against overload. Hum is banished by the special, potted power transformer. Harmonic distortion is a mere 0.5% at 1 kc, 25 watts per channel.

High-Low Gain Key adjusts amplifier's input sensitivity to permit high-level phono output and low-level tape head, or for ensuring proper gain for high or low efficiency speakers. "Variable B" bass control adjusts low frequencies without attenuating midrange. Tape Monitor, Volume Contour, Balance, Blend and other controls. 5 $\frac{1}{2}$ x15x11 $\frac{1}{4}$ ". Less case, below. For 105-120 v., 50-60 cycle AC. Shpg. wt., 18 lbs. *Limited Quantities.*

STEREO FM-AM RADIO SYSTEM

only at **ALLIED**

Stereo Radio System... an Unbeatable Allied Value

- Two Wide-Range Speakers
- Stereo FM Indicator Light
- Balance Control • Dial Light
- Deluxe Oiled Walnut Wood Cabinets
- AFC to Lock in FM Stations

THE BUY
OF THE
YEAR!

\$79⁵⁰
\$5 monthly

Allied brings you an exciting stereo FM, FM-AM radio system at a fantastic low price. Offering performance that compares favorably with systems costing up to \$130.00, this system represents a spectacular value! On one compact chassis, you get an FM multiplex tuner, AM tuner, and stereo amplifier. 12-tube, 7-diode circuit ensures impressive stereo sound quality and sensitive reception.

Two matched 4x6" speakers are housed in attractive enclosures that can be spaced for best stereo listening. AFC holds signals steady for drift-free reception, but can be cut off by defeat switch, to permit reception of weaker stations. All controls are on front panel.

Indicator light flashes on whenever a station broadcasts in stereo. Continuously variable tone control adjusts bass and treble to suit your taste. Tuning is fast and easy, thanks to "magic eye" and 14-1 vernier tuning ratio.

The separate, acoustically-balanced speaker systems give you sound quality far superior to table radios with built-in speakers. You get unusually deep bass reproduction, plus w-i-d-e channel separation for the greatest stereo-FM realism ever achieved at this low price. AM radio reception is enhanced, too.

Has jacks for adding extension speakers, stereo record changer and a tape recorder. Balance control adjusts the sound level of each speaker. Built-in ferrite bar antenna for AM, and 48" wire antenna for FM. Also has provision for external FM antenna, if desired.

Handsome oiled walnut main-cabinet is 6x20x9". Makes a decorative shelf piece in any room. Size of each matching speaker enclosure is 6x10x9". For 110-120 volts, 50-60 cycle AC. From Japan. Shpg. wt., 27 lbs.

10-Transistor FM-AM Portable Radio Plays on Batteries or AC

- Hear Your Favorite FM and AM Stations Wherever You Go
- Indoors, Plays from any AC Outlet to Conserve Batteries

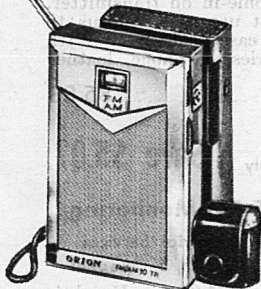

Get big savings—never before have we offered a 10-transistor FM-AM radio with so many fine features, at this low price! Static-free FM stations and standard AM stations come in loud and clear, thanks to distortion-reducing push-pull output. Carefully engineered circuit has 10 transistors, 5 diodes, and thermistor. Battery power lets you hear music, news, and weather reports anywhere you go. At home, built-in AC cord lets you plug radio into any 110-120-volt household outlet.

- Leather-Covered Case • Automatic Frequency Control
- Good, Solid Reception • Push-Pull Output for Clear Tone

A smart-looking leather-covered case protects radio from jars and scratches. FM-station drift is prevented by automatic frequency control—tune the station you want, and it's automatically "locked in." Telescoping antenna for FM; ferrite-core for AM. Earphone lets you listen privately without disturbing others. Black. $5\frac{1}{8} \times 8\frac{1}{8} \times 3$ ". With 4 batteries, AC cord. From Japan. 3 lbs.

A Versatile Dual-Power CB Transceiver

- Dual-Power: 100-Milliwatt and Full Legal 5-Watt Inputs
- 8-Channel Crystal-Control Transmit/Receive Capability
- Superhet Receiver Manually Tunes All 23 Channels
- Unique Speech Clipper Circuit for Greater Range
- Universal 115-VAC Base/12-VDC Mobile Power Supply

Unbeatable performance and top value! Transceiver boasts many features normally found only in 2-way radios selling for much more: automatic noise limiter; tuned RF; adjustable squelch; illuminated S-meter; spotting switch. Mobile mounting bracket, push-to-talk mike, AC/DC cords, crystals for Chan. 9. 5 $\frac{1}{2}$ x 11 $\frac{1}{4}$ x 6 $\frac{3}{4}$ ". For 110-125 v., 50-60 cycle AC or 12 v., DC. C Outstanding 23-Channel CB Transceiver

- All 23 Transmit/Receive Channels Crystal Controlled
- "Range Expander" Circuitry Increases Transmitter Range
- 2.5-Watt Audio Section Used For Public Address Function
- Dual-Conversion Receiver; Noise-Canceling Microphone
- Solid-State Power Supply for Low Battery Drain

Outperforms many transceivers priced over \$200.00! Frequency synthesis circuit provides 23-channel crystal control for both transmit and receive—no extra crystals to buy. Modulation indicator doubles as receive-monitor to prevent missed calls during public address use. Illuminated RF/S meter; self-regulating automatic noise limiter; delta tuning circuit; adjustable squelch; standby. With crystals, mobile mtg. clips, AC/DC cords, mike. 7 $\frac{1}{2}$ x 13 $\frac{3}{8}$ x 5 $\frac{1}{2}$ ". For 110-120 v., AC or 12 v., DC. 9 lbs.

Star Roamer® Shortwave Receiver Kit

- Covers 200 to 400 kc and 550 kc to 30 mc in 5 Ranges
- Superhet Circuit Has Controlled Regenerative IF Stage
- Electrical Bandspread Gives Razor-Sharp Station Tuning
- AVC Reduces Fading and Blasting; ANL Reduces Noise
- Antenna Trimmer Peaks Incoming Signals for Best Reception
- Illuminated "S" Meter; Easy-to-Read 7½" Slide Rule Dial

Sensational sale price on one of the most popular shortwave kits we've ever offered! The Star Roamer puts the world at your fingertips as it pulls in signals from the earth's far reaches. Imagine the thrill of listening to marine and aeronautical bands, with calls from ships at sea, planes aloft, beacons, navigational data, and up-to-the-minute aviation weathercasts. The standard broadcast band brings music, sports events, plus other programs.

3 international shortwave radio bands give you the many languages of the world, on-the-spot news, music, drama, radio Amateurs, Citizens Banders, press stations, and many communication services. Circuit features: IF Sensitivity Control to improve selectivity and develop beat note for code reception; built-in 4" speaker; front-panel headphone jack for private listening. Metal cabinet, 5½x12¼x8". Charcoal gray, aluminum panel. Instructions. For 110-130 v., 60 cycle AC. 12 lbs.

YOU Can Buy With CONFIDENCE At ALLIED ...

I. ALLIED QUALITY MARKS EVERY ITEM WE SELL

You can buy from Allied with absolute confidence. We offer products only from manufacturers with proven excellence. And Allied's own Quality Control lab carefully tests every item of merchandise to meet the finest standards of quality. Join the millions of satisfied Allied customers.

II. ALLIED'S LOWER PRICES SAVE YOU MORE

Allied is the world's largest electronics distributor. Our specialists buy from leading manufacturers at lowest prices. Many items are specially made to our specifications by famous manufacturers to give you values unmatched anywhere. Your dollars buy more at Allied.

III. ALLIED SHIPS SPEEDILY AND SAFELY

Your order receives instant attention from a specially trained staff who are dedicated to service. We ship speedily from the world's largest stocks of electronic equipment. Your order is properly packed to assure safe delivery and is shipped by the fastest, most economical method.

IV. ALLIED SERVICES WHAT IT SELLS

Years after your guarantee expires, Allied's own Repair Department will be available to help you with expert service. Allied's service is best because our technicians are electronics specialists . . . and our servicing equipment is the finest available.

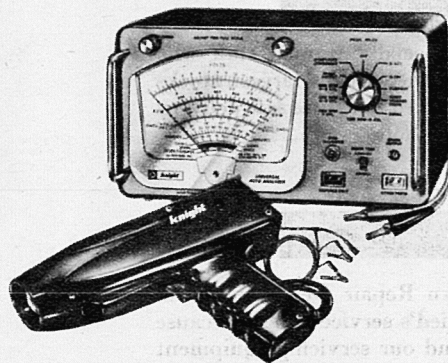

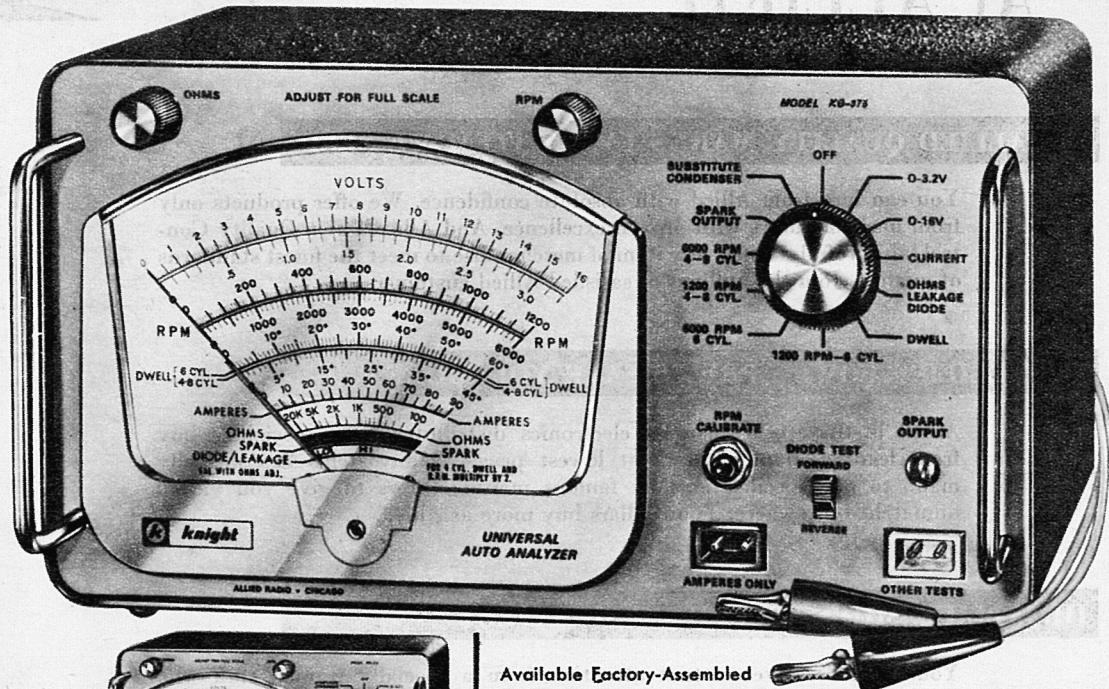

V. SATISFACTION GUARANTEED OR MONEY BACK

If for any reason you are not satisfied with your purchase, return it to us and we will exchange it or return your money less transportation charges. Merchandise returned must not have been abused or altered.

knight-kit® Auto Analyzer ... only at **ALLIED**

Available Factory-Assembled

Was \$49.95 **\$39.88** \$5 monthly

KG-375 Solid-State Auto Analyzer Kit

- Makes Tune-Ups and Troubleshooting Jobs Easier and Faster
- Works on All 8, 6 and 4-Cylinder Cars with 6 or 12 Volts
- Features Dependable, Easy-to-Assemble Transistor Circuit

Now, save 20% on the new, lower-than-ever price of this easy-to-assemble, solid-state kit. When built, compares favorably with the performance of factory models costing much more. Self-contained power supply lets you use it for actual road tests. Engine performance is displayed on a large 7" panoramic meter.

Scales: 0-3.2-16 volts, 0-90 amps; 0-1200-6000 rpm; 0-45°-60°-90° dwell angle; 0-20,000 ohms; relative spark output and leakage. Has neon spark indicator, single function switch, calibrate and adjust controls, sensitive d'Arsonval meter movement, transistor circuit with 1% multiplier resistors and 5% resistors in pulse counter.

Roll-bar carrying handles. 6 1/2"x12 1/2"x5 1/2". For 6 or 12-volt systems, negative or positive ground. Manual has complete tune-up and troubleshooting directions and wiring instructions. With test leads, 4 "D" batteries and 90-amp shunt. 11 lbs.

Our new KG-790 brings you magnificent performance and styling of lasting beauty in true "Superba" Series tradition! Enjoy all the realism and every subtle shading that FM stereo offers... hear the full-range brilliance of conventional FM... plus wideband AM reception that's crisp and clear.

Front-end and IF strip are factory-assembled and precisely adjusted—both have zener diode regulation for utmost stability. Also, all coils and transformers are professionally aligned. 4 FM front-end tuned circuits and 4 double-tuned IF stages insure highest sensitivity and excellent selectivity. Automatic adjustable interstation muting effectively eliminates noise between stations. Circuit switches to stereo mode whenever multiplex broadcast is received; automatic threshold control minimizes false stereo indications on fringe signals; front-panel stereo lamp. SCA filter reduces storecast interference. AM has 10-kc whistle filter for best sound.

Also: ball-bearing flywheel tuning; backlit slide-rule dial for stellar effect; quality printed circuits with transistor sockets for easier assembly. 5x16½x15". All parts, instructions. Sierra Gold panel. Less case, below. For 110-130 v., 60 cycle AC. Wt., 20 lbs.
